

Model RV

RIDGE VENTILATOR

Model RV natural ventilators are a compact, easy to install ventilation solution. They are ideal for any facility with low-to-moderate heat that needs to reduce temperatures and improve worker comfort.

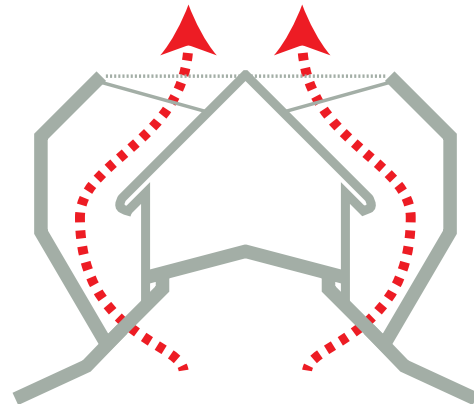

PRODUCT BENEFITS

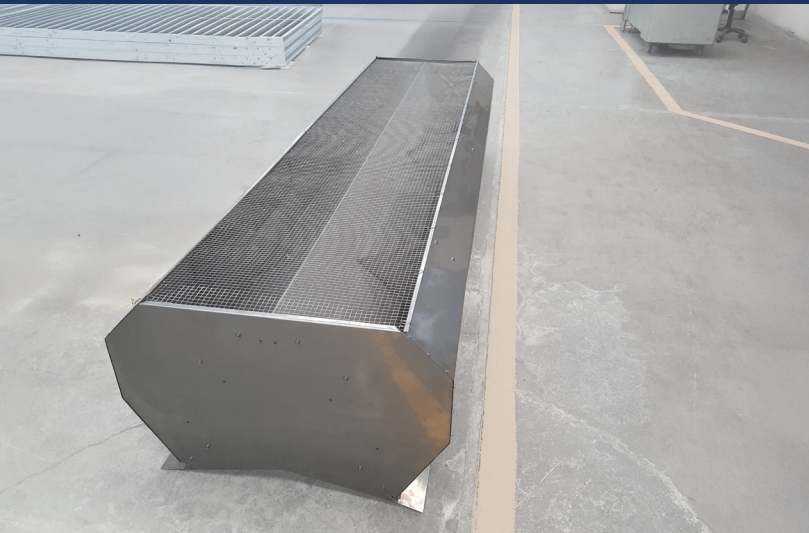

- Exhaust hot, humid air.
- Prevents moisture build-up.
- Long service life with die-formed, galvanized steel sheet metal.
- No energy costs with passive, natural ventilation.
- No maintenance costs.
- Low silhouette blends smoothly with structure.
- Fits all common roof slopes.
- Pre-assembled 10 ft. sections for easy installation & shipping. Sections can be fitted together to make a single continuous span.
- Manual or motorized dampers are available to close off airflow during cold weather.

HOW IT WORKS

Hot air exhausts via gravity ventilation. The interior channels prevent water entry at any rain level.

Hot air exhausts through natural ventilator.

PRODUCT RANGE

Throat	Vent Height	Frame Width	Opening Width	Weight
4" - 24"	20' - 1,000'+	22 5/8" - 22 5/8"	11 3/4" - 34 1/2"	9 lb/ft - 24lb/ft ²

STANDARD FEATURES
